

Task 1.5

Figure 1: Girl Scouts of Northeast Ohio (GSNEO) America Makes AM Patch

Interactive 3D Printing Program

Middle school microlearning modules

These 11 microlearning modules feature a series of short interactive lessons to introduce students to basic elements of Additive Manufacturing (AM). Each module demonstrates a unique step in the AM process – so they can start creating their own designs. They will also find cybersecurity tips and modules to keep them safe along the way.
